General Advisory

- Looking to the previous rainfall condition, farmers are advised to drain out excess water from crop field. There is a chance of decrease in minimum temperature in upcoming days so farmers are advised to make provision to protect their crops as well as animals from cold condition.
- Farmers those are using android mobile, are advised to use **Meghdoot** app for location specific weather forecast and agromet advisories and **Damini** app for early information about thunderstorm and lightning.

Crop and livestock Specific Agromet Advisory

| Name of the crop | Crop Stage | Agromet Advisories |
|---|---|--|
| Paddy | Maturity/ Harvesting | <ul style="list-style-type: none"> Looking to the past rainfall condition farmers are advised to drain out excess water from rice field and wait some days for harvesting operation because of high moisture condition in both grain as well as soil. |
| Vegetable crops (Brinjal, Tomato, Potato, Chilli, Cole crops etc.) | Sowing / planting / Vegetative stage | <ul style="list-style-type: none"> Farmers should use straw or polythene as a mulching material to maintain soil temperature in newly planted vegetable crops because fall in temperature is expected during upcoming week. Farmers should start planting of new vegetable seedling in moist soil and conduct spraying operation when sky is clear. Looking to the decreasing trend of temperature monitoring against blight disease should be advised in case of Tomato and Potato. |
| Green Gram and Black Gram | Sowing / Vegetative stage | <ul style="list-style-type: none"> Sowing of green gram and black gram should be advised in moist soil and also avoid water logged in field due to past rainfall events. |
| Animal Husbandry (Cow and Buffalo) | | <ul style="list-style-type: none"> Farmers are advised to keep the animal shed clean and dry to avoid disease and insect attack and also provide mineral mixture along with fresh clean drinking water to the animal and make proper provision to protect the animal from cold (if possible use jute |

| | |
|--|---|
| | <p>bag to cover the animal and straw as bedding material) because decrease in temperature is expected during upcoming week.</p> <ul style="list-style-type: none">• Vaccination against FMD, HS and BQ should be advised and keep diseased animal in separate room away from healthy animal to avoid spreading of diseases. |
