Crop and Livestock Specific Agromet Advisory

General Advisory	<ol style="list-style-type: none"> As very light to light rain expected in coming days, Farmers are advised to take proper care during irrigation or any kind of spraying operations. For timely planting of vegetables prepare the nursery bed for better utilization of rain water. For paddy cultivation, always use good quality seeds. Germination test is advisable before sowing. Provide clean and adequate water to the cattle. Allow them for grazing either in morning or in afternoon hour. 	
Crop Name	Crop Stage	Agromet Advisory
Kharif Rice	Land preparation	<ul style="list-style-type: none"> Go for green manuring crops i.e. Dhanicha immediately after summer ploughing. Arrange good quality seeds of Dhanicha @12kg/acre as green manuring crop. Farmers are advised to go for summer ploughing by utilizing the rain received in recent past days. Instead of manual DSR followed by beushaning the farmers are advised to follow mechanized DSR cultivation with appropriate package of practices (Variety selection, Seed treatment, Nutrient management).
Sugarcane	Vegetative stage	<ul style="list-style-type: none"> Tie sugarcane leaves from four to five plants together to prevent lodging and carryout propping.
Vegetables	Nursery	<ul style="list-style-type: none"> Make arrangement for covering plastic cover or polythene sheet for vegetables nursery like tomato, chilli and brinjal. Collect the fallen vegetables & immediately dispose to market. Do not apply any fertilizer or pesticide until rain water recedes.
Fruit	Fruiting	<ul style="list-style-type: none"> Papaya- Staking should be done with bamboo and other types of sticks during the fruit development stage to protect the plant against winds & rainfall.
Livestock	Cattle	<ul style="list-style-type: none"> Clean the animal shed by removing excreta & provide clean drinking water to animals. Fodder may be stored in safer place.
