**Weather Summary/Alert:**

According to medium range weather forecast of IMD, MC, Bhubaneswar, there is a chance of occurrence of light to moderate rainfall and heavy rainfall in one or two places over the district along with generally cloudy to overcast sky is expected during upcoming week. No large change in both Maximum and Minimum temperature is expected in upcoming 5 days. High relative humidity along with a wind speed of 3-12 km/h is predicted in easterly and north-easterly direction.

**General Advisory**

- Looking to the past and upcoming rainfall condition, farmers are advised to wait some days for conducting any kind of agricultural activities, make provision to drain out excess water from field and also keep the animals in safe places during thunderstorm and lightning periods.
- Monitor the crop against sucking insects, fruit fly, fruit borer, fruit and shoot borer etc. attack.
- If possible, use Meghdoot mobile app for IMD weather forecast and Agro-meteorological advisory of Odisha in both English and Odia languages, Damini mobile app for thunderstorm and lightning information and Mausam app for location specific forecast and warning.

**SMS Advisory**

- Considering the past and expected rainfall condition, farmers should make provision to drain out excess water from fruit orchard and vegetable fields.

**Crop and livestock Specific Agromet Advisory**

Name of the crop	Crop Stage	Agromet Advisories
<b>Kharif Rice</b>	<b>Active Tillering / Panicle initiation</b>	<ul style="list-style-type: none"> <li>• Second top dressing of urea fertilizer should be advised at panicle initiation stage. As moderate to heavy rain is forecasted in one or two places, farmers are advised to wait some days for any kind of spraying as well as interculture operation.</li> <li>• Farmers should monitor their fields against gall midge attack and sheath</li> </ul>

		blight infestation.
<b>Maize</b>	<b>Tasseling</b>	<ul style="list-style-type: none"> <li>• Top dressing of nitrogen fertilizer should be advised at this stage but farmers should wait some days for any kind of agricultural operations in Maize field because moderate rainfall is expected in upcoming days.</li> </ul>
