AGRO ADVISORY BULLETIN

Date: 14.11.2025

District - Koraput (Eastern Ghat High Land Zone & South Eastern Ghat Zone)

Weather condition during last four days				
Date	10.11.2025	11.11.2025	12.11.2025	13.11.2025
Rainfall (mm)	0.0	0.0	0.0	0.0
T. Max. (°C)	30	30	30	30
T. Min. (°C)	14	13	13	14

Forecast up to 19.11.2025 (According to MC, IMD, Bhubaneswar)

Date	Rainfall (mm)	T. Max. (°C)	T. Min. (°C)	Cloud cover	RH Max. (%)	RH Min. (%)	Wind speed (Km/hour)	Wind direction (°)
15-11-2025	0	29	13	1	77	32	1	34
16-11-2025	0	29	13	0	76	32	1	34
17-11-2025	0	29	14	0	77	31	2	45
18-11-2025	0	29	14	2	79	39	4	41
19-11-2025	0	29	14	0	84	46	3	45

Weather summary:

- Chances of clear to mainly clear sky during next five days.
- Chances of no rainfall during next five days.
- Maximum temperature is expected to be 29°C and minimum temperature is expected to be 13-14°C.
- Maximum and minimum relative humidity is expected to be 76-84%, and 31-46%, respectively.

Agromet Advisory for Koraput district

General:

- Use this dry spell for **post-harvest work, seed drying, and rabi land preparation.**
- Farmers can start sowing **black gram, green gram, lentil, or mustard** in upland and medium lands.
- Maintain storage hygiene — fumigate storage rooms if necessary.
- Avoid burning crop residues; incorporate them into soil to improve fertility.
- Regularly follow **local weather updates** and **Agromet advisories from AMFU_GKMS, Koraput.**
- Monitor advisories daily. Be prepared to reschedule field operations, irrigation, and chemical applications based on expected rainfall or thunderstorm events.

SMS Advisory	➤ Avoid burning crop residues; incorporate them into soil to improve fertility.
Crop and Livestock specific Advisory	
Crop (Stage)	ADVISORY
Rice:	<ul style="list-style-type: none"> ➤ Weather is very favorable for harvesting and drying of grains. ➤ Harvest only after dew dries in the morning to prevent discoloration. ➤ Dry paddy grains to 12–13% moisture before bagging. ➤ Use tarpaulin or cemented floor for sun drying. ➤ Store properly in aerated godowns with periodic turning to avoid insect damage.
Maize:	<ul style="list-style-type: none"> ➤ Favorable weather for cob drying and shelling. ➤ Keep cobs on clean floor under sun for 2–3 days before shelling.

	<ul style="list-style-type: none"> ➤ Store in dry, airtight containers or gunny bags. ➤ Watch for storage pests (weevils) – mix neem leaf powder or celphos tablets (if permitted) for protection.
Pulses (Black gram, Green gram, Horse gram)	<ul style="list-style-type: none"> ➤ Dry weather and low humidity favor good flowering. ➤ Avoid over-irrigation; apply light irrigation at flowering and pod formation. ➤ Watch for pod borer and aphid attack. Spray Neem oil @ 5 ml/litre for initial control. ➤ If defoliation severe, use Emamectin benzoate 0.4 g/litre.
Finger Millet:	<ul style="list-style-type: none"> ➤ Good weather for field drying and threshing. ➤ Avoid stacking harvested panicles in the field overnight due to dew formation. ➤ After threshing, store grains in airtight bags. ➤ Utilize residual moisture for rabi pulses or mustard sowing.
Vegetables (Tomato, Brinjal, Chilli)	<ul style="list-style-type: none"> ➤ Clear sky and cool weather are favorable for vegetative growth. ➤ Provide evening irrigation to avoid moisture stress. ➤ Monitor for aphids and early blight: ➤ For aphids: Neem oil @ 5 ml/litre. ➤ For early blight: Mancozeb @ 2 g/litre spray. ➤ Use mulching to conserve soil moisture and prevent weeds.
Mango:	<ul style="list-style-type: none"> ➤ Prune dry or diseased branches of mango, guava, citrus, and apply 10–15 kg FYM per plant. ➤ Maintain light irrigation in young orchards to prevent moisture stress. ➤ Spray Bordeaux mixture (1%) against leaf spot or dieback if symptoms observed.

For better agricultural benefits use, **OUAT KALINGA** products (Seedlings, Saplings & QPM, Tissue Culture Plants, Fruits & Vegetables, Value Added Products, Fingerlings/ Yearlings, Poultry chicks, Breeds, Mushroom & Spawn, Bio-Fertilizer, Bio-Pesticides, Vermi & Vermi Compost and Farm Implements).

IMD Weather forecast and Agro-meteorological advisory of Odisha location is now available on Meghdoot mobile app in English and Odia language.
