Weather Warnings (Valid Till 08:30 IST of the next day)

no warning

Likely impacts of weather warnings on Agriculture and associated Agromet advisories

no warning

General Advisory:

Don't feed wet or water soaked straw to cattle. Before feeding dry it well under Sun. Animal's shed and its floor should not remain wet and cool for longer periods of time. This may expose the animals, especially younger ones, to various ailments like pneumonia, fever, coccidiosis, and even death in severe case. Good ventilation must be ensured during winter

SMS Advisory:

Go for spraying of 2 g Metalaxil + Mancozeb in 1 litre water to control root rot in vegetables

Fisheries Specific Advisory:

Fisheries	Fisheries Specific Advisory
COMMON FISH	Use CIFAX @400ml/acre or Lime @400 kg/ha as an alternate for monthly basis for water quality management and prevention of any disease during winter months.

Others (Soil / Land Preparation) Specific Advisory:

Others (Soil / Land Preparation)	Others (Soil / Land Preparation) Specific Advisory
GENERAL ADVICE	If stored rice grain infestation occurs, take up fumigation by using Aluminium phosphide tablets @ of 3 tablets / ton grain in fairly air tight containers or by covering with thick tarpaulin leaving no gaps. The tablets should be wrapped in cotton pouches before placing them in the stacks, which helps to discard the remnants after completing the fumigation.

Likely impacts of weather warnings (General)

Due to ongoing heavy foggy weather, the vegetables as well as pulses crops might get infested by Powdery mildew, leaf blight and Sucking pest, so recommended plant protection measures to be accepted after monitoring the crops.

Impact based advisories (General)

For preventing CRD (Chronic Respiratory Disease) maintain litter properly, take care of disinfection and avoid ammonia build up in poultry shed. Stirring of the litter twice a day to make the litter dry.

Farmers are advised to download Unified "Mausam" and "Meghdoot" android application on mobile for Weather forecast and weather based Agromet Advisories and "Damini" android application for forecast of Thunderstorm and lightning.
